last updated 20<sup>th</sup> October 2022

### 1. Validity

- 1.1. Supplies (Goods), services and offers of a Supplier of Ependys Marivers GmbH (herein called "Ependys Marivers") shall be governed by the general terms and conditions provided herein. These are part of all contracts/agreements, which Ependys shall execute with the Supplier regarding the Supplier's supplies and services. They hold valid for any supplies, services and offers to Ependys Marivers by the Supplier, without the requirement to be again expressly agreed upon.
- 1.2. Any terms and conditions of the Suppliers that deviate from the present ones shall not apply, even if Ependys Marivers has not expressly objected to their validity. A reference of Ependys Marivers to a document that contains or refers to terms and conditions of the Supplier shall not suggest any agreement to the validity of such terms and conditions.

### 2. Prices and Invoicing

- 2.1. The prices quoted by Ependys Marivers are net prices, excluding any applicable statutory value added tax.
- 2.2. Prices may be adjusted regularly according to price-adjustment mechanisms to be agreed by the Parties. Regular adjustments of agreed prices shall be reasonable and shall not be used as a means of forcing termination of a supplies' agreement earlier than agreed.
- 2.3. Unless otherwise agreed, invoicing will be carried out based on the weight recorded by the Supplier at the point of origin (i.e. weight of loaded material) and the quality assessment at the point of origin of the material. However, the weight shall be deemed to be the weight recorded by Ependys Marivers or its end-customer, i.e. the final recipient of the supplies (e.g. recycling plant, reprocessor, compounder etc.), should Ependys Marivers or the end-customer, upon delivery of the Goods, record a weight that is at least 1% or 100 kg lower (whatever is smaller) than the weight recorded at the point of origin.
- 2.4. The weight, set as per clause 2.3 above, shall be corrected further and directly proportionally to an identified weight disadvantage, should Ependys Marivers or end-customer, upon delivery of the Goods;
  - 2.4.1. discovers rejects (waste) at the surfaces of or within the bales of the Goods that account for at least

- 1% of the Goods' weight or 100 kg (whatever is smaller); or
  - 2.4.2. visually rejects entire bales that account for at least 1% of the Goods' weight or 100 kg (whatever is smaller); or
  - 2.4.3. establishes a moisture content that is at least 1% of the Good's weight, or equals to 100 kg (whatever is smaller); or
  - 2.4.4. record a sum of weight of rejects (as per 2.4.1) and weight of rejected entire bales (as per 2.4.2) and moisture (as per 2.4.3) that is at least 1% of the Goods' weight, or 100 kg (whatever is smaller).
- 2.5. The weight shall be determined by using a weighing scale that is verified for use in legal metrology. The Supplier shall provide Ependys Marivers with the last certification of the weighing scale, within 1 (one) workday from the day requested.
  - 2.6. Shall the weight of a load (e.g. the amount of Goods loaded on a truck, or in a container, or any other applicable transport means) differ from the reference payload (i.e. the payload that applies to the agreed price), the price shall be adjusted according to a weight-and-price-scale to be agreed.
  - 2.7. Quality assessment upon loading at the point of material pick-up shall be performed by the Supplier. Ependys Marivers maintains the right of appointing a different assessor (e.g. a third party, or Ependys Marivers' staff itself). The identity of the quality assessor shall not affect the validity of the terms of this document in any regard.
  - 2.8. Supplier's Invoices shall be accompanied by all necessary documents for the assessment of the contractually agreed delivery of the Goods. Those include, but are not limited to, the weighing scale report, delivery note, consignment note/bill of lading, Annex 7 (EC Regulation 1013/2006), and the Agreement on the Shipment and Recovery of Waste (in accordance with Article 18, paragraph 2 of the European Commission's Regulation N<sup>o</sup> 1013/2006. Any delays caused to Ependys Marivers by any of those documents being missing, incomplete, or false, shall cause the invoice settlement periods to extend to account for the corresponding delays.
  - 2.9. Supplier's invoices, credit/debit notes, notifications, claims and other request related to Goods' loads shall contain the Ependys Marivers' reference number (i.e. load number).

### 3. Place of fulfilment, Risk transfer, and Supply

- 3.2. The Supplier shall make the Goods available for collection within the agreed collection schedule, including the "Last Collection Date" as defined within the corresponding Ependys Marivers Purchase Order. Within 5 (five) workdays from receipt of the cancellation notice, the Supplier will fully reimburse Ependys Marivers any advance payments made by Ependys Marivers for the cancelled Goods.
- 3.3. The risk of deterioration and of accidental destruction of goods is transferred to Ependys Marivers upon the transfer of the goods to Ependys Marivers at the place of fulfilment.

Ependys Marivers has the right to demand partial or entire replacement of the Goods, should they judge that they do not satisfy the agreed quality. Replacements dictated during loading shall be carried by the Supplier quickly to prevent extra costs due to delays in completing the loading process.
- 3.6. Ependys Marivers has the right to change the agreed dispatch and/or collection dates and times, by means of paper or electronic message (email), or telephone call. Any reasonable, proven costs incurred by the Supplier in such a case, which were not to be avoided by means of exercising reasonable efforts by the Supplier, shall be met by Ependys Marivers. The Supplier shall, to this effect, provide in writing a careful estimate of the incurred costs within 1 (one) workday following the submission of the change of date and/or time notice by Ependys Marivers.
- 3.7. Ependys Marivers maintains the right to cancel a Purchase Order entirely or partly, without justification, by providing a 5 (five) days' written notice (including by email) to the Supplier.

- 5.3. In the event of there being quality and/or quantity deviations from the agreed ones, a notice for obvious defects (i.e. defects identifiable by means of a visual examination of the goods) shall be deemed to have been submitted on time to the Supplier, if given within 10 workdays from the day of delivery of the goods to Ependys Marivers' Client (may also be referred to as end-customer, or offtaker, or recycler, or re-processor, or sorting-plant, or compounder, or otherwise), or, for hidden defects, within 90 (ninety) days from the day of delivering the Goods to Ependys Marivers' end-customer.
- 5.4. The Supplier has the right to, either personally, or by appointing a third party, inspect Goods for which Ependys Marivers has raised a claim about quality or otherwise defects. Ependys Marivers and the end-client (e.g., re-processor, sorting plant etc.) will also have the right to attend such inspections, either personally or by pointing a third party). Inspections will be carried out within 15 (fifteen) workdays from the date on which the Supplier received the complaint from Ependys Marivers, unless agreed otherwise.

While the material (Goods) awaits collection for being returned to Supplier, Ependys Marivers shall make every reasonable effort to ensure that it does not undergo any further quality deterioration due to weather or otherwise conditions.
